Consumers who purchased a Kelly’s Green product should check the packaging for the UID and batch numbers listed in this Notice to determine if the item is subject to the recall.

Kelly’s Green, through internal quality control procedures, identified and reported potential contamination associated with certain harvest batches at its facility. Upon identification of possible mold contamination, Kelly’s Green worked diligently with the Mississippi Medical

## MISSISSIPPI MEDICAL CANNABIS PROGRAM

MISSISSIPPI STATE DEPARTMENT OF HEALTH

Cannabis Program to take immediate action including additional testing of these products, the results of which demonstrated the necessity for recall and remediation of the specified products. In parallel, Kelly's Green immediately initiated a rigorous, thorough investigation into this matter. At the time these products were sold by Kelly's Green, the company was unaware of any possible public health concerns posed and was in possession of Certificates of Analysis (COA) identifying the products as "Passed" from a licensed medical cannabis testing laboratory.

At this time, there are no known reports of illness. According to the Centers for Disease Control and Prevention (CDC), most people breathe in mold spores without getting sick; however, people with weakened immune systems or lung diseases are at a higher risk of developing health problems due to mold inhalation.

If you or someone you provide care for purchased cannabis products from the product packages identified herein, you are advised to immediately discontinue use of the product.

Consumers should discard or return these products to the dispensary sales location for proper disposal.

Consumers who have experienced adverse reactions after using these products should report their symptoms and product use to their healthcare providers. Adverse effects from product usage should also be reported to the dispensary from which the product was purchased. Dispensaries, in turn, should utilize the adverse effect reporting tool in METRC to convey the information into the seed-to-sale system.

Retailers have two options for the returned product and the product in their physical inventory: (1) discard/waste the product in accordance with applicable regulations or (2) contact Kelly's Green via email at [red@kellysgreen.biz](mailto:red@kellysgreen.biz) and [bnicholson@kellysgreen.com](mailto:bnicholson@kellysgreen.com) for further information and/or instructions pertaining to refund or replacement of the impacted items.

Retailers who sold cannabis products subject to this recall must display this Notice of Voluntary Recall on the sales floor, visible to all consumers, for thirty (30) days from the date of issuance.
